## Birthday girl in a ribboned frame

### MATERIALS

- Orange and white cardstock
- BoBunny Yummy collection Flowers, Sweet Stripes and Sugar Slices patterned paper
- Penny Black Cinnamon stamp (3842K)
- Penny Black 'Birthday girl!' stamp (3682C)
- Orange 1.5m organza ribbon
- ColorBox pigment inkpad
- Crystal Ranger Stickles glitter glue
- 2mm foam pads
- Colouring pencils
- Double-sided tape
- Glue

### TO CREATE

1 Cut a 15x30cm piece of orange cardstock and fold to create a card blank. Attach a 13.2x14cm piece of Yummy Flowers paper to the centre of the card blank.

2 Stamp the Cinnamon image onto a 10x12cm piece of white cardstock and colour:

3 Punch holes all around the edges – nine along the sides and eight top and bottom – and thread the ribbon around the card to make a frame. Leave loops around the card to really give a 3D effect.

4 Affix the panel to the card base using two layers of foam pads.

5 Stamp your sentiment onto a piece of blue paper from the Sugar Slices paper and layer onto Sweet Stripes paper:

6 Stick the sentiment onto the ribbon frame using glue and foam pads. Dab dots of Stickles glitter glue around the stamped image to finish.

### Expert tip

Invest in a really good box of colouring pencils with a large selection of colours, so that you can match any patterned papers and ribbons that you're using in colour

## Floral fun day!

+ DRYING  
TIME

### MATERIALS

- Orange and white cardstock
- BoBunny Yummy collection Sweet Stripes and Mini Dots patterned paper
- Autumn Leaves Rhonna Farrer Flowers clear stamps
- Hero Arts Pop Petals stamp set (LL022)
- Pebbles Inc pearlescent chalks
- VersaMark watermark stamp pad
- Blue 80cm ribbon
- 2mm foam pads
- Double-sided tape
- Computer
- Glue

### TO CREATE

1 Cut a circle from Sweet Stripes paper with a diameter of approximately 2cm and punch six holes around the edge.

2 Thread the blue ribbon through a hole then fold the ribbon in two about 10cm length, threading the fold through the second hole and so on until you

reach the hole where you started. Leave one long end for the stalk of the flower:

3 Cut a circle from white cardstock with a diameter of about 1.5cm and glue it to the back of your flower. Leave to dry for at least one hour, or preferably overnight.

4 Cut a 14x21cm piece of orange cardstock and fold to create a card blank. Stamp the Autumn Leaves and Hero Arts flower stamps randomly on the front of the card using VersaMark ink, and dab the images with chalk.

5 Stick the flower onto your card using glue behind the white backing and double-sided tape for the stalk.

6 Use a computer to create a sentiment tag that says 'Let's have a... Floral Fun Day!'

7 Cut a 4x5cm piece of Mini Dots paper and attach to your card with glue. Add the orange sentiment tag overlapping, using foam pads.
